

AdlerandAllan Group

Quality Policy Statement

The Executive Management and all personnel of the Adler and Allan Group are fully committed to a comprehensive and developing policy of assuring the supply of quality goods, processes and services in accordance with the company's organisational goals and the expectations and needs of all clients in all spheres of the company's activities and operations.

The Directors and Senior Management accept the total responsibility for the provision of qualified and experienced management, personnel and skilled craftsmen, suitable resources, documented working practices and procedures to ensure all contract commitments are both efficiently and effectively expedited and achieved.

The company's Quality Assurance System is "approved and certified" to BS EN ISO 9001:2000 (including working toward BS EN ISO 9001:2008), which is subject to continuing internal and external assessment and surveillance by third party UKAS approved body National Quality Assurance Limited (NQA).

To ensure the working effectiveness of the company's Quality System, the Directors have appointed an Integrated Management Systems Manager and Management Systems Coordinator who has responsibility for the continuity of the Quality System including the continual review of company policies and procedures in line with our current business activities to ensure full compliance with the International Standard for Quality Management Systems.

The company's Quality Policy is a corporate statement regarding quality of product, goods, processes and services, which is totally supported by the Directors, all management and personnel within the corporate Adler and Allan Group including Adler and Allan Limited and Industrial Water Jetting Systems Limited.
