

Adler and Allan announce acquisition of electrical specialist business AMGS Electrical

London, 15 March 2021, Environmental risk reduction business, [Adler and Allan](#), announces the acquisition of electrical specialists [AMGS Electrical](#).

AMGS Electrical undertake a wide range of electrical services nationwide and specialise in design, installation, commissioning, and maintenance particularly in the evolving forecourt sector.

With an expert team of highly accredited electrical engineers, it will provide outstanding technical support to Adler and Allan's customers, particularly in retail forecourts. This acquisition complements Adler and Allan's existing electrical services offering.

Andrew Clarke, Energy Infrastructure Director, Adler and Allan, said: "The acquisition allows us to further execute our strategy, helping clients maintain and decarbonise their energy infrastructure and install new electric vehicle (EV) infrastructure, as the world transitions to a mixed energy future. By combining this with our other energy and forecourt services, we are now able to be a much more strategic environmental partner to customers."

James Alker, MD of AMGS Electrical, said: "By joining Adler and Allan, we can help all of our customers with an even wider set of specialist forecourt and electrical services; ultimately, we're about to offer something much more joined up, whether customers are implementing lighting, CCTV, or even EV infrastructure, Adler and Allan is the partner for them. Together we have become a leader in the forecourt sector."

The announcement is part of a series of strategic acquisitions which includes industrial sewage specialist, Oneline Surveys and hazardous materials specialist, Flotech Performance Systems Limited, and supports Adler and Allan's ambitious growth plans to solve more customer challenges in a broader range of sectors with a joined-up approach to its services.

Adler and Allan is the UK's leading provider of environmental risk reduction services, covering both emergency response and scheduled maintenance across a wide range of critical asset infrastructure and contaminants. AMGS Electrical is a member of APEA, Trustmark and the federation of small businesses.
