### Adler and Allan Ltd Gender Pay Gap Statement 2020

Under the Equalities Act 2010 (Gender Pay Gap Information) Regulations 2017, the Company is required to publish a gender pay gap statement by 4th April 2020.

The Board of Directors has overall responsibility for promoting compliant practice in relation to equality in the workplace and upholding core principals of fairness and any related legal obligations. The Finance Director has been identified as being the appropriate person to sign this statement on behalf of the Company.

The Company has made and continues to make a strong commitment to the principals of equal pay and the elimination of any gender bias in salary structure, role allocation and selection and systems of pay.

## **Gender Pay Gap**

The gender pay gap is the difference in average earnings between men and women regardless of the roles they perform.

Gender pay differs from equal pay which looks at the actual pay differences between people carrying out the same or comparable work.

The Company acknowledges and complies with the requirement to publish the gender pay gap information between male and female employees.

Our calculations have been carried out in accordance with the regulations using data collected on 5th April 2019.

The Adler and Allan Group is committed to the principal of equal pay for all its employees and aims to identify and eliminate any bias in pay and reward related to any of the protected characteristics defined in the Equalities Act 2010. It is in the Company's interest to ensure that it has fair and just pay and reward systems and structures in place, so employees, potential new joiners and other stakeholders have confidence in the process of eliminating bias, and the Company's commitment to achieving equal pay and addressing the matter of gender pay gap or other inequality in the workplace.

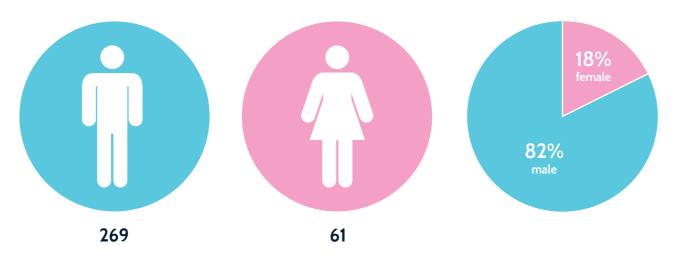

The Company recognises that inequality in the workplace and occupational segregation will have a negative effect on addressing or upholding the core principles of equality in the workplace.

In addition, the Company acknowledges it makes good business sense to have fair and transparent systems of pay/reward and can contribute to and understanding costs.

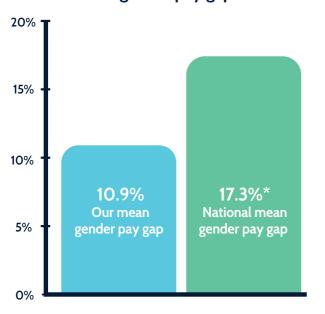

The Company also understands that the analysis of pay and reward and in some cases, the greater availability of part time and senior positions being available to all employees may have a positive impact on pay gap.
