

## **Adler and Allan acquire industrial sewage specialist Oneline Surveys**

**London, 15 March 2021**, Environmental risk reduction specialist, [Adler and Allan](#), announces the acquisition of industrial sewage and underground infrastructure specialist [Oneline Surveys](#) into its environmental services division.

Oneline Surveys provides highly specialised surveys of underground infrastructure as well as cleaning, handling and uplift of hazardous liquid waste from industrial tanks and sewers. Oneline has over 30 years combined experience in planning, mobilising and successfully completing large scale surveying and cleaning projects, including tank and siphon cleaning and confined space entries.

Robert Evans, Environmental Services Director, Adler and Allan, said: “This acquisition will allow us to offer a more extensive environmental risk audit of our customers’ underground infrastructure so they can better manage and mitigate risk. It will also position us as the go-to leader in emergency response to sewerage pollution incidents. Combined with our other environmental services, we are now a more strategic environmental partnership to our customers.”

Stuart Johnson, Managing Director, Oneline Surveys, said: “We are delighted to be joining the Adler and Allan family today. With increasing risks of flooding and therefore sewage incidents, together with tighter regulation of underground infrastructure, we can now bring our vital specialist services to more customers across the UK, as part of the Adler and Allan family.”

The announcement is part of a series of strategic acquisitions which includes electrical specialists AMGS Electrical and hazardous material pipeline specialist Flotech Performance Systems Limited and supports Adler and Allan’s ambitious growth plans to solve more customer challenges in a broader range of sectors with a joined-up approach to its services.

Adler and Allan is the UK’s leading provider of environmental risk reduction services, covering both emergency response and scheduled maintenance across a wide range of critical asset infrastructure and contaminants.

### **Ends**

#### **Notes to editors:**

Adler and Allan provide market leading environmental risk reduction through preventative and responsive solutions, offering an expert 24-7 service to its customers. Adler and Allan’s customers include multinational blue-chip organisations across a wide range of sectors both private and public including defence, utility, marine, fuel, forecourt and facilities management. Adler and Allan give its customers peace of mind in detecting and identifying the environmental risks posed to their business. Its broad range of risk mitigation products and services keep businesses strong, reducing the prospect of litigation, costly fines and bad publicity, as well as reducing the threat to the environment. In a world where the environment and legislation are in constant flux, Adler and Allan also provides emergency response in a variety of settings.

#### **Key facts:**

- Over 20 depots across the whole of the UK
